

PROJECT INFORMATION FORM

If you have any questions about this application or would like an electronic copy of the funding request packet, please call or email Rachel Moriconi at 831-460-3203 or rmoriconi@sccrtc.org.

A. Project Information

1. Project Title: Mt Hermon Road Overlay Project
2. Amount of RSTP Funding Requested: \$ 740,000
3. Implementing Agency: County of Santa Cruz
4. Sponsoring Public Agency that has Master Agreement with Caltrans (if different from implementing agency):
(Same)
5. This is priority number 2 of 5 projects submitted. *(If requesting funds for more than one project)*

6. Project Description/Scope:

This project involves pavement maintenance of approximately 1.34 miles of Mt Hermon Rd from Graham Hill Rd to 1000' North of Locatelli Lane. The construction method used shall be isolated sections digout and asphalt replacement where rutting has occurred, followed by an application of Cape Seal to the entire roadway surface, then restriping of the work area. Work shall extend from berm to berm and include any existing asphalt bus turnouts.

Mt Hermon Road connects the City of Scotts Valley to the community of Felton in Santa Cruz County and serves motor vehicles and public transit. While this section does not have bike lanes it is considered an alternate bike route by the RTC. The road provides access for residents, local businesses, emergency response vehicles, Henry Cowell State Park, Sky Park, Felton Covered Bridge County Park, Roaring Camp Railroad, Mt Hermon Conference Center, Valley Gardens Golf Course, Felton Fair Shopping Center, Kings Village Shopping Center, and is a vital link between the communities of Scotts Valley and Felton. This project will extend the life of this road so that it may continue to benefit the community.

7. Project Cost by Mode:

Road Rehab	Road –Auto Serving	Bicycle	Pedestrian	Transit	TOTAL
%	91%	%	%	9%	100%

8. Project Location/Limits (attach an 8 1/2" x 11" map and/or photos if available/applicable, include street names):

Mt Hermon Rd from Graham Hill Rd to 1000' North of Locatelli Lane (See Attached Map)

a. Project Length (in miles or feet, if applicable):

Approximately 1.34 Miles

b. For road projects: What is the functional classification of this road, as defined by FHWA?

Minor Arterial

(Note: STP funds cannot be used on roads functionally classified as “local” or “rural minor collectors” except for bridges not on federal-aid highways and as shown under STP Eligible Activities)

9. Contact Person/Project Manager Name: Joel LaCagnin
 Telephone Number: (831) 454-2160 E-mail: dpw799@co.santa-cruz.ca.us

B. Project Delivery Milestones

(Enter the proposed schedule or actual completion of various project milestones):

10. Capital Projects - Schedule:

Project Milestone	Date
Begin Environmental (PA&ED) Phase	Winter 2012
Circulate Draft Environmental Document Document Type (ex. EIR)	Winter 2012
End Environmental Phase (PA&ED Milestone)	Winter 2012
Begin Design (PS&E) Phase	Summer 2013
End Design Phase (complete PS&E)	Fall 2013
Begin Right of Way Phase	Fall 2013
End Right of Way Phase (Right of Way Certification Milestone)	Winter 2013
Request Authorization to Proceed with Construction (completion of all prior tasks)	Winter 2013
Award Contract	Summer 2014
End Construction Phase (Construction Contract Acceptance Milestone)	Winter 2014
End Closeout Phase (Closeout Report)	Spring 2015

C. Project Cost Summary

11. Capital Projects – Total Cost Estimate:

Environmental (PA/ED)	Design (PS&E)	ROW	Construction	Other*	Contingency	Total Project Cost
	\$125,381		\$626,907		\$83,587	\$835,875

Project Benefits

- 1. Generally, what are the benefits of this project?** (ex. goal/purpose/benefit of project; problem to be addressed; importance to the community):
 Mt Hermon Road connects the City of Scotts Valley to the community of Felton in Santa Cruz County and serves motor vehicles and public transit. While this section does not have bike lanes it is considered an alternate bike route by the RTC. The road provides access for residents, local businesses, emergency response vehicles, Henry Cowell State Park, Sky Park, Felton Covered Bridge County Park, Roaring Camp Railroad, Mt Hermon Conference Center, Valley Gardens Golf Course, Felton Fair Shopping Center, Kings Village Shopping Center, and is a vital link between the communities of Scotts Valley and Felton. This project will extend the life of this road so that it may continue to benefit the community.
- 2. How many travelers will be served by/benefit from this project per day?** 19,330
 ADT volumes (if applicable) 19,330
 Other (e.g. avg. number of people directly served/day; number of users of facility/day; TDM-direct participants and indirect beneficiaries) N/A
- 3. What are the destinations served by this project?** (e.g. employment centers, senior centers, schools, groceries, transit centers, etc.)
 Henry Cowell State Park, Sky Park, Felton Covered Bridge County Park, Roaring Camp Railroad, Mt Hermon Conference Center, Valley Gardens Golf Course, Felton Fair Shopping Center, Kings Village Shopping Center.
- 4. Does this project preserve existing transportation infrastructure/facilities or services?**
 The pavement surface of this road segment is at an ideal state for minor repairs and surface treatment to preserve pavement life and prevent deterioration to a state where more costly repairs would be required.
- 5. Does this project increase access or reduce pollution? If so, how? If not applicable, put N/A.**
 This route is popular for short distance trips as well as longer distance trips. Improving the pavement quality will provide a smoother ride and should serve to encourage more bike ridership on this route. The smoother road surface should also serve to improve speed consistency and fuel efficiency in motor vehicles, as well as reduce travel time for both bicycles and motor vehicles.
- 6. Does this project increase safety? Describe.** If not applicable, put N/A.
 The smoother road surface should improve access for emergency vehicles and reduce abrupt maneuvering to avoid ruts or potholes, thereby reducing the potential for conflicts between vehicles & bicyclists. Roadway re-striping will make lane delineations, traffic legends, and pedestrian crossings more visible, also increasing safety.
- 7. How does the project increase access and safety cost effectively, equitably and responsive to the needs of all users and/or benefit the natural environment?** If not applicable, put N/A.
 The improvements to the roadway surface will increase safety for both vehicles and bicycles. Since bicycles are an affordable and unrestricted mode of transportation, this allows greater access to those groups who are unable to drive or do not have access to motor vehicles.
- 8. Has public input been sought on this project? What is the public engagement plan for implementing this project? Is it identified in an adopted plan or other document?** N/A
