1. Call to Order
2. Introductions
3. Oral Communications
   The Committee will receive oral communications during this time on items not on today’s agenda. Presentations must be within the jurisdiction of the Committee, and may be limited in time at the discretion of the Chair. Committee members will not take action or respond immediately to any Oral Communications presented, but may choose to follow up at a later time, either individually, or on a subsequent Committee agenda.
4. Additions or deletions to consent and regular agendas

CONSENT AGENDA

All items appearing on the consent agenda are considered to be minor or non-controversial and will be acted upon in one motion if no member of the E&D TAC or public wishes an item be removed and discussed on the regular agenda. Members of the E&D TAC may raise questions, seek clarification or add directions to Consent Agenda items without removing the item from the Consent Agenda as long as no other E&D TAC member objects to the change.

5. Approve Minutes from Jan 15, 2013 meeting (page 3)
6. Receive Transportation Development Act (TDA) Revenues Report as of Jan 2013 (page 7)
7. Receive RTC Highlights through Jan 2013 (page 8)
8. Receive summary of Pedestrian Hazard Reports (page 10)
9. Receive current E&D TAC Roster (page 11)
10. Receive E&D TAC Letter to County Elections dated 12/12/2012 (page 13)
11. Receive Santa Cruz County Elections Response Letter dated 1/16/2013 (page 14)
12. Information Items (links provided, hard copy circulated at meeting)
   a. Seniors Drive Infrastructure Spending 1/30/13 article in Mass Transit magazine
13. Receive Agency Updates (other than items on the regular agenda)
   a. Volunteer Center
   b. Community Bridges serving as the Consolidated Transportation Services Agency
      - 1st Quarter Report for FY 2012-13 Transportation Development Act Report (page 18)
   c. Santa Cruz Metropolitan Transit District (Metro)
      - ParaCruz Operations Status Report: Jan 2013 (page 20)
      - Accessible Services Report: Jan 2013 (page 26)
d. Santa Cruz County Regional Transportation Commission

e. Private Operators

REGULAR AGENDA

14. Select Section 5310 Grant Application review committee – RTC staff (page 30)

15. Accept Aptos Village Plan Accessibility and Design Features – County Staff (page 33)

16. Pedestrian Safety Work Group Update – Chair

   a. Letter from Pedestrian Safety Work Group to Realtors Association dated 1/18/13 (page 49)

17. Adjourn

Next meeting locations and times:

- 1:30 pm, April 9, 2013 @ the RTC offices
- 1:30 pm, June 11 @ Mid-County Location

Future Topics: TDA Claims, Pedestrian Improvements near Activity Centers/Bus Stops, Transit Service to Frederick Street and other activity centers

HOW TO REACH US

Santa Cruz County Regional Transportation Commission
1523 Pacific Avenue, Santa Cruz, CA 95060
Phone: (831) 460-3200 / fax (831) 460-3215
Email: info@sccrtc.org / website: www.sccrtc.org

ACCOMMODATIONS FOR PEOPLE WITH DISABILITIES

The Santa Cruz County Regional Transportation Commission does not discriminate on the basis of disability and no person shall, by reason of a disability, be denied the benefits of its services, programs, or activities. This meeting location is an accessible facility. If you wish to attend this meeting and require special assistance in order to participate, please contact RTC staff at 460-3200 (CRS 800/735-2929) at least three working days in advance of this meeting to make arrangements. People with disabilities may request a copy of the agenda in an alternative format. As a courtesy to those persons affected, please attend the meeting smoke and scent-free.

SERVICIOS DE TRADUCCIÓN/TRANSLATION SERVICES

Si gusta estar presente o participar en esta junta de la Comisión Regional de Transporte del condado de Santa Cruz y necesita información o servicios de traducción al español por favor llame por lo menos con tres días laborables de antelación al (831) 460-3200 para hacer los arreglos necesarios. (Spanish language translation is available on an as needed basis. Please make advance arrangements at least three days in advance by calling (831) 460-3200.)
1. **Call to Order** at 1:37 pm

2. **Introductions**

   **Members Present:**
   - Kirk Ance, CTSA Lift Line
   - Lisa Berkowitz, CTSA (Community Bridges)
   - Debbi Brooks, Volunteer Center
   - John Daugherty, Metro Transit
   - Veronica Elsea, 3rd District
   - Sally French, Soc. Serv. Prov.-Disabled (Hope Services)
   - Clay Kempf, Social Services Provider
   - Michael Molesky, Social Services

   **Others Present:**
   - Amelia Conlen, People Power
   - Erich Friedrich, Metro Transit
   - Deborah Lane, Santa Cruz Resident
   - Leslyn Syren, Metro Transit

   **RTC Staff Present:**
   - Grace Blakeslee
   - Ginger Dykaar
   - Cathy Judd
   - Rachel Moriconi
   - David Pape
   - Karena Pushnik

   **Excused Absences:**
   - Hal Anjo, Potential Bus Rider
   - Patti Lou Shevlin, 1st District

   **Alternates Present:** None

3. **Oral Communications** - None

4. **Additions or deletions to consent and regular agendas**

   A Public Hearing notice regarding meeting dates/times for review and comment on the Santa Cruz Metropolitan Transit District’s Non-Discrimination Program.

   John Daugherty requested Item 8, Brainstorm Projects for Section 5310, 5316 and 5317 and other funding, be discussed at the end of the regular agenda to allow sufficient time to receive information about Items 7 and 9 for possible consideration as part of the brainstorming discussion.
CONSENT AGENDA

Action: The motion (French/Berkowitz) - - to approve the consent agenda - - carries with Mike Molesky and Veronica Elsea abstaining.

5. Approved Minutes from December 11, 2012 meeting

6. Received Agency Updates
   a. Volunteer Center
   b. Community Bridges serving as the Consolidated Transportation Services Agency
   c. Santa Cruz Metropolitan Transit District (Metro)
   d. Santa Cruz County Regional Transportation Commission
   e. Private Operators

REGULAR AGENDA

7. Recommend projects for $5 million in Regional Surface Transportation Program (RSTP) funds

Rachel Moriconi, Senior Transportation Planner discussed the Regional Surface Transportation Program (RSTP) funds saying that over $5 million in FY12 and FY13 funds is available for programming in Santa Cruz County. Ms. Moriconi said that the RTC received applications for 19 projects totaling over $8 million, $3 million over the available amount. She summarized the projects submitted along with preliminary staff recommendations and said that in some instances project sponsors may need to reduce project scope to match reduced funding if construction bids do not come in below engineers estimates. Ms. Moriconi said that all RTC advisory committees recommendations will be presented at a public hearing at the February 7th RTC meeting.

Member discussion included:
- What happens if funding amounts are not allotted
- Whether surplus monies are returned to the county or lost
- Prioritizing projects, especially ADA accessibility for the Aptos Village Plan Improvements, including adequate accessible sidewalks throughout the project area, especially on the south (ocean side) of Soquel Drive and crossing the railroad tracks, and Soquel at Frederick Street Improvements, due in part to the proximity of two major activity centers for senior and people with disabilities: Dominican Rehabilitation Center and La Posada Senior Housing
- The likelihood/importance of restoring Metro fixed route service to Frederick Street/La Posada and surrounding neighborhood
- The extent of benefits for the Ride On Folding Bike Program

Action: The motion (Kempf/Molesky) - - for the E&D TAC to recommend two main projects: 1) Aptos Village Project, at the staff recommended level ($690,000), including ADA accessible sidewalks throughout the project area, especially on the south (ocean side) of Soquel Drive and crossing the railroad tracks; and 2) improvements to the Soquel/Frederick intersection, at 75% of the City’s request ($187,500), due to the proximity of two major activity centers for seniors and people with disabilities: Dominican Rehabilitation Center and La Posada Senior Housing, be added to the City of Santa Cruz’s other two recommended projects (Branciforte Bike/Ped Bridge and Laurel Street Pavement Rehabilitation). However, if the City of Santa Cruz has another revenue source and will advance the Soquel/Frederick project within one year, the E&D TAC supports the City and RTC staff recommendation to fund only the City’s top two projects (Laurel and Branciforte) at 90% - - carries.
Action: The motion (Elsea/Ance) - - for the E&D TAC to support the remainder of RTC staff recommendations to program the over $5 million in FY12 and FY13 funds - - carries unanimously.

8. **Brainstorm Projects for Section 5310, 5316 and 5317 and other funding (item taken out of order and is now new Item 10a)**

9. **Provide Input on 2014 Regional Transportation Plan Draft Project List Prioritization**

   Ginger Dykaar, Transportation Planner discussed the 2014 Regional Transportation Plan (RTP) and 2014 Metropolitan Transportation Plan (MTP). Ms. Dykaar said there are 3 elements to prioritize projects, Policy Element, Action Element, and Funding Element and said that staff is currently in the Action Element component. Ms. Dykaar mentioned that members of the public and project sponsors have identified projects to be considered for the RTP/MTP draft project list. Ms. Dykaar said that the list will undergo various levels of review and analysis which will determine the projects included on the constrained list (project that could be implemented within foreseeable revenues through 2035) or unconstrained list (projects that could be funded if new revenues are generated). Ms. Dykaar said that all recommendations will be presented to the Commission at its February 7th meeting and that she would return to the E&D TAC in summer with the updated priority list.

   Rachel Moriconi also encouraged members to submit other projects to staff.

   Members discussed the project list, shifting specific project priorities, and asked Ms. Dykaar to explain why some projects show multiple RTC staff rankings. Ms. Dykaar explained that the projects showing multiple rankings are those that are part constrained and part unconstrained.

   Generally, members requested consideration of the following amendments:

   - MTD-P11: ADA Service Expansion – increase rank from 3 to 2
   - MTD-P44: Inter-County Paratransit Connection – increase rank from 3 to 2
   - RTC-P43: Senior Employment Ride Reimbursement – increase rank from 4 to 1 or 2

10. **Review Caltrans Transit Intern grant draft report on Senior Transit Use**

   David Pape, RTC Intern, gave a detailed summary of the draft report titled *A Bus Use Survey of Aging and Disabled Adults Living in Santa Cruz County*. Mr. Pape said that the goal of the report was to understand current modes of travel for seniors and the changing mobility needs of older adults. Mr. Pape said that by 2030 1 in 5 adults will be 65 years of age or older. Mr. Pape will present the Draft Report to the Commission at one of its future meetings.

   *A motion (Elsea/French) - - to extend the E&D TAC meeting an additional 15 minutes until 3:50 - - carries unanimously.*

   Members discussed:

   - Distributing the report to City planning departments, Seniors Council, Regional Planning agencies, Cal Act and Senior Centers
   - Surveying disabled adults who are not seniors
   - Include service animals on Metro
• Support for driver transition from AARP
• Use of results by Metro

Members thanked Mr. Pape for all his hard work on the project and Draft Report.

Ms. Pushnik said she will send E&D TAC members the link to the Draft Report to be considered by the Commission.

10a. **Brainstorm Projects for Section 5310, 5316 and 5317 and other funding**

Karena Pushnik said that RTC staff is recommending that the E&D TAC develop a list of specialized transportation projects to pursue using federal, state and local transportation funding. Ms. Pushnik said that fund applications are due to the RTC on March 11 and recommended that this item be considered at February E&D TAC agenda for further discussion.

Brainstorming discussion included:

- Senior volunteers to deliver meals
- Stop and shop
- Livable communities
- Destination dollars
- Senior ambassadors
- Shopper shuttle

11. **Adjourn 4:05 pm.**

Santa Cruz County Regional Transportation Commission (RTC)
Meeting Highlights

December 6, 2012

Appreciation of Departing Commissioners for Their Service: Departing Commissioners Kirby Nicol, Ellen Pirie, and Mark Stone were thanked for their years of service to the Commission, including steadfast leadership through the completion of the Santa Cruz Branch Rail Line acquisition, completion of the Highway 1 and 17 Merge Lanes project, and launching the Highway 1 Soquel to Morrissey Auxiliary Lanes project.

Election of 2013 RTC Chair and Vice-Chair: The new RTC Chair for 2013 will be Commissioner Neal Coonerty. The Vice-Chair will be Commissioner Eduardo Montesino.

November 17 Right on Track Rail Corridor Ribbon Cutting Event: Community excitement to commemorate public ownership of the Santa Cruz Branch Rail Line and new transportation options was extraordinary as evidenced by over 1400 people riding the free train from the Westside of Santa Cruz during the November 17th rail corridor ribbon cutting event. In addition, hundreds of enthusiastic participants attended each of the five ‘whistle stops’ held in Watsonville, Aptos, Capitola, Live Oak, and Santa Cruz, where festivities included live entertainment and presentations of local rail history. The event’s success would not have been possible without the participation of thousands of county residents and the generous support of sponsors, co-hosts, organizations, and volunteers. Photos and more information about the event are on the RTC website: http://sccrtc.org/projects/rail/right-on-track/

Highway 1 Soquel/Morrissey Auxiliary Lanes Project Construction Update: Work continues to focus on the completion of the retaining walls on the northbound side of the highway. Work is also progressing on the bridge abutments for the new La Fonda Avenue Overcrossing. On the south side of the highway, work continues on grading the slopes, hauling away excess dirt, and grinding down the existing deteriorated asphalt from the outside lane currently behind the barrier. Preparatory actions are underway to address storm water drainage in the project area. The construction team and support agencies will be closely monitoring conditions with the ability to respond as needed.

Santa Cruz County Unified Corridor Investment Plan Grant Award: The RTC accepted a Partnership Planning grant of $211,085 from Caltrans to develop a Santa Cruz County Unified Corridor Investment Plan analyzing three primary transportation routes in Santa Cruz County: Highway 1, Soquel Avenue/Drive and the rail line. The plan will provide Caltrans, the RTC, and other partner agencies the ability to prioritize limited funds to those projects and programs that provide the greatest benefits toward achieving local, state and federal transportation goals.

Amendments to the Fiscal Year 2012-13 Budget and Work Program and Santa Cruz Branch Rail Line Property Management: The RTC amended the Fiscal Year 2012-13 Budget and Work Program to incorporate completion of the Santa Cruz Branch Rail Line purchase, modification of the 511 system planning work, the Highway 1 HOV Lanes Environmental Document, and other changes. Additionally, the RTC approved receipt of a fee paid by
Caltrans for a temporary construction easement on the rail line to replace existing guardrails on Highway 1 where the rail line crosses the highway. Finally, the RTC authorized its Executive Director to manage the rail line right-of-way property in order to provide law enforcement agencies with permission to implement trespass rules, authorization for entities to do work on the rail line right-of-way, collect rents, and address tenant issues as necessary.

January 24, 2013

Highway 1 Soquel/Morrissey Auxiliary Lanes Project Construction Update: Rain through the Christmas period slowed progress; however, the recent sunny weather and additional construction work in the evenings and weekends resulted in the completion of all but one of the retaining walls. Next steps include finishing the northbound retaining wall and construction of the new auxiliary lanes. Traffic will then be diverted to the new lanes while the center column of the La Fonda Overcrossing is removed and rebuilt. At this time, completion of the La Fonda Avenue Overcrossing is projected for early summer. Completion of the entire project, including installation of landscaping, is anticipated for late summer.

Draft 2013 Legislative Program and Legislative Updates: The RTC adopted a 2013 legislative program to guide its analysis of state and federal legislative or administrative actions. The RTC will continue to focus on preserving funds dedicated to transportation and generating new, more stable revenue sources. Key issues in 2013 include implementation of the federal transportation bill (MAP-21) at the state and federal level; the next federal transportation act; and state initiatives that could result in increased funding for transportation projects, including: proposals for cap-and-trade revenues, a new state transportation bond initiative, a statewide vehicle license fee, and lowering the voter threshold for local transportation ballot measures to 55%.

Article 8 Transportation Development Act (TDA) Allocation Claim from the City of Santa Cruz: The RTC approved the City of Santa Cruz’s Article 8 TDA Allocation Claim for the following projects: $20,000 for annual restriping of the city’s 30 miles of bikeways, maintenance of bikeways, and minor improvements; $1,000 to develop bicycle parking facilities at high use areas in the public right of way; and $150,000 for Phase 2 of the West Cliff Drive path paving project, to include paving and minor widening of the multi-use path from Lighthouse Field to Almar Avenue.

Proposition 1B Transit Security Funds for Santa Cruz METRO: The RTC designated its share of Fiscal Year 2012/2013 Proposition 1B California Transit Security Grant Program funds to the Santa Cruz METRO for transit security projects, as it has done since 2008. Santa Cruz METRO will use this $212,337 in security funds to complete installation of lighting and video surveillance equipment at METRO facilities, including Park and Ride lots.

Amendments to the Fiscal Year (FY) 2012-13 Budget and Work Program: The RTC amended its Fiscal Year 2012-13 Budget to incorporate the award (via competitive process) of a partnership planning grant from Caltrans to develop a Santa Cruz County unified corridor investment plan. The unified corridor investment plan will analyze Highway 1, Soquel Drive and the Santa Cruz Branch Rail Line and will assist Caltrans, the RTC and other partner agencies in prioritizing limited funds to those projects that provide the greatest benefits towards achieving local, state and federal transportation goals.

Elections Department
County of Santa Cruz
701 Ocean Street, Room 210
Santa Cruz, CA 95060

RE: Accessibility of Polling Places

Dear Gail Pellerin:

The Elderly & Disabled Transportation Advisory Committee (E&D TAC) advises the Santa Cruz County Regional Transportation Commission (RTC), the Santa Cruz Metropolitan Transit District (Metro), and other service providers on transportation needs for people with disabilities, seniors and persons with limited means.

At their recent meeting, the E&D TAC discussed the challenges presented to voters, especially persons with disabilities and seniors, when their polling place changes. Sometimes the new polling location is much farther away or more difficult to access for the voter. The new location may also inadvertently compromise the right to a secret ballot. Suggestions include the use of Public Service Announcements, highlighting polling location changes on the materials mailed to each household, etc. Implementation of these and other promotional measures would help ensure that people with disabilities arrange transportation and/or use other means to access secure voting situations.

Based on this discussion, the E&D TAC approved the following motion:

Send a letter to the County Elections office requesting that there be more promotion to voters when their polling place changes.

Please let the committee know what steps the Elections Department may undertake to address this issue.

Thank you for your consideration.

Sincerely,

A. John Daugherty, Chair
Elderly and Disabled Transportation Advisory Committee

RE: Accessibility of Polling Places

Dear Mr. Daugherty,

Thank you for your committee's interest in making elections accessible to all voters in our county! We are always grateful for feedback from the public. This is a very important topic for our office that requires me to give you a little bit of history before I can address your specific concerns.

In 2003, we were contacted by the California Department of Justice (CA DOJ) regarding the accessibility of our polling locations. We immediately took action to start replacing sites that had barriers. Changes to our program continued, but in 2005 the CA DOJ chose to sue us anyway. In 2007, we entered into an enforceable agreement which stipulated a number of changes to our program. That agreement lasted until 2010. During the course of that agreement we did the following:

- Maintained and expanded our Voting Accessibility Advisory Committee (VAAC) to include members from the local business community to aid us in finding more accessible locations that are convenient to voters but still meet federal ADA and state Title 24 building codes. The Committee meets quarterly. Mr. Molesky from your board sits on this committee as well as members from various disability and language groups.
- Drafted a Polling Place Accessibility Plan which addressed how we look for polling places, assess their accessibility, make determinations between sites, assign voters, and maintain our pool of sites for future elections.
- Created site-specific set up binders for each polling location so mitigations are properly installed for Election Day.
• Conducted a drive-by assessment of all areas of the county to locate potential polling locations with an emphasis on areas where the existing sites have significant barriers.

• Contacted potential polling places and surveyed sites that said they would be willing to consider being a polling place.

• Created a Path of Travel Mitigation Transportation Plan which addressed the issue of polling locations where the path of travel from the street, sidewalk, or public transportation stop were not fully accessible by providing a free ride to and from the polling place (with a drop off at an accessible location on the site) so long as the voter contacted our office.

• Mitigated barriers wherever possible at polling sites which included temporary ramps and thresholds, door hardware modifications, signage, temporary parking accommodations, rerouting paths of travel, etc.

• Upgraded our Sample Ballot & Voter Information Pamphlet page for voters with specific needs to include a full page in English and another in Spanish with extensive information on the services we provide including our "ride to the polls", ballot delivery, curbside voting, etc.

• Revised our Sample Ballot & Voter Information Pamphlet covers to more clearly indicate that voters polling places may have changed and to check the back cover to determine where their polling place will be located for the current election.

• Revised our Sample Ballot & Voter Information Pamphlet back covers to more clearly illustrated the accessibility status of each polling place.

The first step we took under our agreement with CA DOJ was to work with the state’s accessibility expert on developing a comprehensive survey tool that addressed only one element per question and that each question had a measurable standard.

We then worked with the Secretary of State (SOS) and Department of Rehabilitation (DOR) to make the new, clearer survey the state standard. One element that we felt strongly about was the path of travel from public transportation stops. The state requirement only addresses public transportation stops located on the property where the polling place is located. We take it one step further and survey any public transportation stops within 200 feet of the property line, which catches far more stops than we are required to survey under the state guidelines.

Our third step was to encourage the SOS to institute an on-going training program for the counties to ensure that there were qualified surveyors present in each county to do this work. We were successful and trainings were offered in 2012.
In conjunction with these trainings, I lead a series of conference calls for the California Association of Clerks and Election Officials (CACEO) Voters with Specific Needs Subcommittee between line staff of the 58 counties to discuss the new survey tool. We moved through the survey question by question and elaborated on that measurement was important and how to take it, document it and interpret it. Each call was interactive and I answered questions for staff throughout the state that may not be able to make it into trainings.

Furthermore, I was asked by the SOS to help the DOR conduct in-person regional intermediate level trainings for surveyors throughout the state on how to conduct these surveys and I stressed the importance of including public transportation stops in their surveys even if they were not on the property. The target audience members for these classes were mid level staff that were likely to be decision makers on putting together policy at the departments and interpreting data presented to them. These trainings reached 56 out of 58 counties in California.

Additionally, we aggressively sought funding to allow us to make bigger and bolder improvement to our programs. In order to make the improvements, we applied for and received approximately $300,000 in grant funding (the majority of which was a competitive grant) to accomplish a variety of things including:

- Purchase polling place mitigation supplies
- Film a sensitivity training video for election officers to show during all training classes
- Work on improving the accessibility of our website
- Make temporary improvements to polling places
- Make permanent improvements to some polling places including fixing the access ramp at the bus stop at 1080 Emeline Health Building
- Purchase accessible tables for our touchscreen units

Finally, in 2010 I spoke at a CACEO conference on what top level management needed to address within their departments to ensure that the access message permeates all areas of their programs from ballot layout to polling place selections to website design and information distribution. This session was very well attended reaching nearly as many counties as the conference calls and regional trainings.

In direct response to your letter dated December 12, 2012, you state that "sometimes the new polling location is much farther away or more difficult to access."

We are required to comply with ADA and Title 24 in regards to selecting polling locations. As described above, we were sued by the CA DOJ because our sites were not compliant. As of November 2010, at the conclusion of implementing our agreement, our polling sites were found to be in substantial compliance.

Also, we are at the mercy of the polling locations when it is election time. Sometimes facilities decide they no longer want to provide us with space for a polling place, such as schools that are greatly impacted with students and can no longer provide us with the space for voting.
You also indicate that “The new location may also inadvertently compromise the right to a secret ballot.” I am not sure how the location would do that. Each polling place provides for an accessible voting unit that allows any voter to vote independently and privately, regardless of disability. And, each Precinct Inspector is given a binder showing exactly how to set up the polling location to ensure that voters have access to the voting equipment and are able to cast a secret ballot. Please provide more specific information in regards to how you think the secrecy of the ballot is compromised. The right to a secret ballot is mandated in the constitution and if you believe that is not happening in Santa Cruz County please provide our office with specifics so we can follow up immediately.

In regards to your suggestion of using “public service announcements…..,” our office does several news releases regarding many aspects of the election and stories have been in all the various media outlets including print, radio, network television, community television, and internet. If you believe there is another way for us to get information to our voters, please advise.

Your suggestion of “highlighting polling location changes on the materials mailed to each household, etc.” I would like to know how you think we should change the materials. Currently, there are several places in the booklet mailed to every household that advises voters that their polling place may have changed and to check on the back cover of the booklet. We also have polling place lookup online where voters can find their polling place and get directions. Moreover, we provided a Voter Guide Now app in June and November for voters to look up their polling place and get directions.

We remain fully committed to making sure that every eligible person gets registered and votes. We try to design our entire program with universal access principles in mind. We always welcome suggestions for how we can better reach our voters, including voters with disabilities.

Thank you for your letter and your commitment to accessibility in Santa Cruz County. I think it would be great if you could join our local Voting Accessibility Advisory Committee so you can help us in improving our services to voters with specific needs. Our next VAAC meeting is Friday, February 22, 2013 at 1 p.m. in the Law Library. I will look forward to seeing you there.

Please feel free to contact myself, or Gail Pellerin, the County Clerk, at any time with questions or concerns. We would also be happy to meet with you and/or your committee to showcase the many efforts we have made to ensuring access to voting in Santa Cruz County.

Sincerely,

Jaime Young

FROM: April Warnock, ParaTransit Superintendent

SUBJECT: METRO PARACRUZ OPERATIONS STATUS REPORT–OCTOBER AND NOVEMBER 2012

I. RECOMMENDED ACTION

This report is for information only - no action requested

II. SUMMARY OF ISSUES

• METRO ParaCruz is the federally mandated ADA complementary paratransit program of the Transit District, providing shared ride, door-to-door demand-response transportation to customers certified as having disabilities that prevent them from independently using the fixed route bus.

• METRO assumed direct operation of paratransit services November 1, 2004. This service had been delivered under contract since 1992.

• Discussion of ParaCruz Operations Status Report.

• Attachment A: On-time Performance Chart displays the percentage of pick-ups within the “ready window” and a breakdown in 5-minute increments for pick-ups beyond the “ready window”. The monthly Customer Service Reports summary is included.

• Attachment B1 and B2: Report of ParaCruz’ operating statistics. Performance Averages and Performance Goals are reflected in the Comparative Operating Statistics Table in order to establish and compare actual performance measures, as performance is a critical indicator as to ParaCruz’ efficiency.

• Attachments C and D: ParaCruz Performance Charts displaying trends in rider-ship and mileage spanning a period of three years.

• Attachment E: Current calendar year’s statistical information on the number of ParaCruz in-person eligibility assessments, including a comparison to past years, since implementation in August of 2002.
III. DISCUSSION

From September 2012 to October 2012, ParaCruz rides decreased by 568 rides. The decrease in rides does trend typically with the previous years. The number of rides performed in October 2012 was 268 less than the number of rides performed in October 2011.

From October 2012 to November 2012, ParaCruz rides decreased by 1026 rides. The decrease in rides does trend typically with the previous years. The number of rides performed in November 2012 was 410 less than the number of rides performed in November 2011.

Number of Eligible Riders for the month of October 2012 = 3035
Number of Eligible Riders for the month of November 2012 = 3081
DATE: January 25, 2013
TO: Board of Directors
FROM: John Daugherty, METRO Accessible Services Coordinator
SUBJECT: ACCESSIBLE SERVICES REPORT FOR NOVEMBER 2012

I. RECOMMENDED ACTION

This report is informational only. No action required.

II. SUMMARY OF ISSUES

- After a demonstration project, the Accessible Services Coordinator (ASC) position became a full time position to organize and provide METRO services to the senior/older adult and disability communities.

- Services include the METRO Mobility Training program and ongoing public outreach promoting METRO's accessibility. The ASC also participates in METRO's staff training and policy review regarding accessibility.

- Two persons have served in the ASC position from 1988 to today. In 2002 the ASC position was moved into the newly created Paratransit Department. On May 27, 2011 the Board approved the staff recommendation to receive monthly reports on the activity of the ASC.

III. DISCUSSION

The creation of the Accessible Services Coordinator (ASC) position was the result of a successful demonstration project funded through the Santa Cruz County Regional Transportation Commission. Two persons have served in the ASC position from 1988 to today. Both hiring panels for the ASC included public agency representatives serving older adults and persons with disabilities.

The first ASC, Dr. Pat Cavataio, served from April 1988 through December 1998. The second ASC, John Daugherty, began serving in December 1998.

Under direction, the Accessible Services Coordinator: 1) Organizes, supervises, coordinates and provides METRO services to the older adult and disability communities; 2) Organizes, directs and coordinates the activities and operation of METRO's Mobility Training function; 3) Promotes and provides Mobility Training and outreach services; 4) Acts as information source to staff, Management, funding sources, clients, community agencies and organizations, and the general public.
Regarding Mobility Training and accessibility; 5) Works with Department Managers to ensure compliance with METRO’s accessibility program and policies.

During 2002 the ASC position was moved from Customer Service to the newly created Paratransit Department. Mr. Daugherty was the first employee. His placement was followed by hiring of the first Paratransit Superintendent, Steve Paulson and the current Eligibility Coordinator, Eileen Wagley.

On May 27, 2011 the Board approved the following recommendation: “Staff recommends that this position be reinstated in FY 12 budget with the requirement that this position be evaluated during FY12 to make sure the service items that are being requested by the Community are being carried out by this position. Additionally, staff recommends that this position be required to provide a monthly activity report to the Board of Directors during FY12.”

Date Prepared: January 18, 2013
Attachment A

Accessible Services Coordinator (ASC) Activity Tracking Report for November 2012

What is Mobility Training?

Mobility Training is customized support to allow access to METRO services. It can include:

- **An Assessment:** The ASC meets the trainee to assess the trainee’s capabilities to use METRO services. They discuss the trainee’s experience using public transit and set goals for training sessions.

- **Trip Planning:** Practice to use bus route schedules, maps, online resources and other tools to plan ahead for trips on METRO fixed route and METRO ParaCruz services. All Mobility Training includes some trip planning.

- **Boarding/Disembarking Training:** Practice to board, be secured, and then disembark (get off) METRO buses. This training has been requested by persons using walkers, wheelchairs, scooters and service animals. The training session includes work with an operator and out of service bus and lasts three to five hours.

- **Route Training:** Practice using METRO buses to travel to destinations chosen by trainees. The training session includes practice on handling fares, bus riding rules and emergency situations. One training session can take two to eight hours. One or two sessions to learn one destination is typical. The number of training sessions varies with each trainee.

There was progress with 13 trainees:

- One person, a new referral from his school counselor, successfully completed his Route Training with the ASC.
- Two other persons were new referrals. The ASC assessed one person requesting assistance to board and ride buses with her walker. Route Training possible, but not scheduled. Another person requested boarding assistance with her service dog. The ASC set up Boarding/Disembarking Training for December.
- Another person completed his next two Route Training sessions. The ASC will check during December to confirm the completion of his successful training.
- The ASC spoke to and watched a past trainee successfully board a bus.
- One person exchanged phone calls to set up further training.
- One person exchanged emails, asking questions on Metro services. Another person phoned the ASC with questions to follow up her successful Route Training.
Attachment A

- Training with five persons is almost complete: November activity included checking on whether further training is needed and preparation to close their files or complete their referral sheets.

Training Overview for November 2012:

- Amount of time dedicated to training sessions and follow up activity: At least 40 hours
- Tracking of scheduled appointments vs. cancelled:
  Six appointments scheduled, one appointment cancelled

Highlights of Other Activity - Outreach performed in the community:

- November 8 Commission on Disabilities meeting
- November 27 Pedestrian Safety Work Group meeting

Meetings are usually scheduled for two hours. Total ASC time spent includes preparation for the meeting, the meeting itself and follow up activity. ASC activity for each meeting can take four to nine hours.

The total audience for November meetings was at least 14 persons. Questions on METRO service varied. Information was provided during meetings and follow up phone calls.

Requests from the community and METRO staff:

- There were at least 18 individual contacts in person and/or over the phone. Most contacts regarded the status of training and requests for presentations.
- The ASC attended in house demonstrations of a new bus ramp on November 20 and a different prospective ramp configuration on November 28.
AGENDA: February 12, 2013

TO: Elderly & Disabled Transportation Advisory Committee

FROM: Karena Pushnik, RTC Staff

RE: Section 5310 Grant Applications - Local Review Committee

RECOMMENDATION

Staff recommends that the Elderly & Disabled Transportation Advisory Committee:
Designate a local review committee to preliminarily score Section 5310 grant applications and make recommendations to the RTC.

BACKGROUND

Funding is available from federal grant sources to serve accessible transportation needs. Funding is available from Section 5310: Elderly & Disabled Specialized Transportation. These are capital funds for the purchase of specialized transportation vehicles and related equipment.

These funding sources are administered by Caltrans under the direction of the California Transportation Commission. Projects applying for these grants are required to be derived from the Coordinated Public Human Services Plan that was drafted by Association of Monterey Bay Area Governments (AMBAG), with input by local transportation and social service providers. The grants are allocated by statewide competition, rather than by formula allocation.

DISCUSSION

The Section 5310, grant applications are due March 11, 2013 to the Santa Cruz County Regional Transportation Commission, who serves as the regional transportation planning agency. The locally application scores applications must be approved by the RTC at their May 2 meeting and forwarded to Caltrans by May 13. A fact sheet for the program is attached (Attachment 1).

In years past, a local review committee was formed to review the applications and score them based on the criteria provided by the state.

RTC staff requests the E&D TAC to assist with identifying agencies to assist with the Section 5310 application scoring. Entities that have assisted in the past include:

< Santa Cruz Metropolitan Transit District
< Seniors Council
< Commission on Disabilities

Staff recommends that this year a local review committees be established to score the Section 5310 grant applications.

Attachment 1: Section 5310 Fact Sheet
Federated Transit Administration

PROGRAM FACT SHEET AND TIMELINE

Program Purpose: Provide capital grants for projects that meet the transportation needs of elderly persons and persons with disabilities where public mass transportation services are otherwise unavailable, insufficient or inappropriate.

Program History: Since the program’s inception in 1975, approximately 500 agencies have received over 4000 vehicles statewide, serving a variety of client groups and programs ranging from small agencies with specific clientele (e.g. dialysis and AIDS patients) to large providers serving an entire community. The average cost for yearly maintenance for a vehicle is estimated at $8,500.

Funds Available
- Approximately $13 million in Federal funds are available for this cycle;
- 100% in federal funds upon FTA approval of Transportation Development Credits.

Eligible Applicants:
- Private non-profit corporations;
- Public agencies where no private non-profits are readily available to provide the proposed service;
- Public agencies that have been approved by the State to coordinate services.

Eligible Equipment:
- Accessible vans and buses;
- Mobile radios and communication equipment;
- Computer hardware and software

Service Eligibility: Services to be provided must serve the transportation needs of elderly persons and/or persons with disabilities. Public service must be “incidental” per FTA C 9070.1F.

Project Eligibility: Applicants must have management oversight and control over the operations and service of the equipment. Applicants are required to provide sufficient justification and provide documentation that alternative transportation services are unavailable, insufficient or inappropriate to meet the agency’s transportation needs.

Selected project vehicle(s) must provide a minimum of 20 hours of service per week per vehicle or in coordination with other agencies.

All projects selected for funding must be derived from a Coordinated Public Transit-Human Services Transportation Plan (Coordinated Plan) as required by FTA C 9070.1F.

Vehicle Replacement Eligibility: Vehicle(s) must be in active service. Active service is defined as a vehicle providing service throughout the agency’s normal days and hours of operation. A van(s) proposed for replacement must have been in service for four years or have at least 100,000 miles at the time of application. A replacement bus(s) must meet or exceed useful life at the time of application.

Service Expansion Eligibility: Applicants must be able to document that the proposed transportation service will provide:
- Services to additional persons; or
- Expand the service area or hours; or
- Increase the number and/or frequency of trips.

Funding Selection Process:
1. The Regional Transportation Planning Agency (RTPA) scores the applications using established evaluation criteria and completes a prioritized list for their region.
2. The State Review Committee reviews the RTPA scores, and scores a statewide-prioritized list of projects based on available funding.
3. The California Transportation Commission (CTC) holds a public hearing to review and adopt the final list of projects.
4. Caltrans submits approved projects to the FTA.

Program Requirements: Once approved by FTA, successful applicants enter into a Standard Agreement with Caltrans. The agreement remains in effect until the project’s useful life. Grantees are responsible for the proper use, operating costs, and maintenance of all project equipment. Grantees must be prepared to comply with the requirements of Caltrans, the Department of Motor Vehicle and the regulations of the California Highway Patrol.
**PROGRAM NOTE:**

*FTA Section 5310 vehicles are purchased by Caltrans using a State procurement process. Upon Caltrans approval, public agencies can follow their own local procurement process. However, the grantee must comply with state and federal procurement procedures when purchasing with local funds. Upon project completion, the grantee requests reimbursement from Caltrans for the Federal Share.*

TO: Elderly & Disabled Transportation Advisory Committee
FROM: Karena Pushnik, RTC Staff
RE: Receive Aptos Village Plan Accessibility and Design Features

RECOMMENDATION

This is an information and discussion item, with no action required or recommended.

BACKGROUND

At the January 15, 2013 special meeting of the Elderly & Disabled Transportation Advisory Committee, attendees supported the Aptos Village Plan in the Regional Surface Transportation Program (RSTP) with the inclusion of accessible sidewalks in the design.

Staff invited the project sponsor, the County of Santa Cruz, to attend the meeting to review the design features.

DISCUSSION

County Public Works staff, Jack Sohriakoff will attend the meeting and provided schematics of the various design features of the project. Attached are pages showing streets, sidewalks, crosswalks, and other features of the Aptos Village (Attachment 1). Specifically the following sites are included:

- Parade Street at Soquel Drive
- Aptos Creek Road
- Aptos Creek Road
- Trout Gulch Road

Mr. Sohriakoff will answer questions about the project at the meeting. However to be more productive, it is recommended that E&D TAC members email questions about the project in advance of the meeting to RTC staff.

Preempt verification and response time

1. Preempt delay time (seconds) .......................... 1. 1
2. Controller response time to preempt (seconds) .................. 2. 0

3. Preempt verification and response time (seconds): add lines 1 and 2
   3. 10 d-e-

Worst-case conflicting vehicle time

4. Worst-case conflicting vehicle phase number .......................... 4. 6
5. Minimum green time during right-of-way transfer (seconds) .......... 5. 0
6. Other green time during right-of-way transfer (seconds) ............... 6. 0
7. Yellow change time (seconds) ........................................... 7. 3
8. Red clearance time (seconds) ............................................ 8. 1

9. Worst-case conflicting vehicle time (seconds): add lines 5 through 8
   9. - -

Worst-case conflicting pedestrian time

10. Worst-case conflicting pedestrian phase number .................... 10. 4
11. Minimum walk time during right-of-way transfer (seconds) .......... 11. 0
12. Pedestrian clearance time during right-of-way transfer (seconds) .... 12. 0
13. Vehicle yellow change time, if not included on line 12 (seconds) .... 13. 0
14. Vehicle red clearance time, if not included on line 12 (seconds) ..... 14. 0
15. Worst-case conflicting pedestrian time (seconds): add lines 11 through 14

Worst-case conflicting vehicle or pedestrian time

16. Worst-case conflicting vehicle or pedestrian time (seconds): maximum of lines 9 and 15

17. Right-of-way transfer time (seconds): add lines 3 and 16

 ________________
SECTION 2: QUEUE CLEARANCE TIME CALCULATION

18. Clear storage distance (CSD, feet) ........................................... 18. 0`
19. Minimum track clearance distance (MTCD, feet) ..................... 19. 0`
20. Design vehicle length (DVL, feet) ........................................... 20. 0`

21. Queue start-up distance, L (feet); add lines 18 and 19 .................. 21. 0
22. Time required for design vehicle to start moving (seconds): calculate as \(2+(L+20)\) ................................................................. 22. 2.0
23. Design vehicle clearance distance, DVCD (feet); add lines 19 and 20 .................. 23. 0`
24. Time for design vehicle to accelerate through the DVCD (seconds) ............. 24. 13.5

SECTION 3: MAXIMUM PREEMPTION TIME CALCULATION

26. Right-of-way transfer time (seconds): line 17 .......................... 26. 0
27. Queue clearance time (seconds): line 25 .................................. 27. 15.4
28. Desired minimum separation time (seconds) ............................. 28. 4.0

29. Maximum preemption time (seconds): add lines 26 through 28 ......... 29. 24.5

SECTION 4: SUFFICIENT WARNING TIME CHECK

30. Required minimum time, MT (seconds): per regulations .......... 30. 20.0
31. Clearance time, CT (seconds): get from railroad ..................... 31. 0
32. Minimum warning time, MWT (seconds): add lines 30 and 31 ........... 32. 20.0
33. Advance preemption time, APT, if provided (seconds): get from railroad ... 33. 11.0

34. Warning time provided by use of railroad (seconds): add lines 32 and 33 ................................................................. 3
35. Additional warning time required from railroad (seconds): subtract line 34 from line 29, round up to nearest full second, enter 0 if less than 0 ................................................................. 0

4. Worst-case conflicting vehicle phase number .......... 4. 0
5. Minimum green time during right-of-way transfer (seconds) 5. 0
6. Other green time during right-of-way transfer (seconds) 6. 0
7. Yellow change time (seconds) 7. 3
8. Red clearance time (seconds) 8. 1
9. Worst-case conflicting vehicle time (seconds): add lines 5 through 8 9. 1.0.0.5

Worst-case conflicting pedestrian time
10. Worst-case conflicting pedestrian phase number .......... 10. 8
11. Minimum walk time during right-of-way transfer (seconds) 11. 0
12. Pedestrian clearance time during right-of-way transfer (seconds) 12. 0
13. Vehicle yellow change time, if not included on line 12 (seconds) 13. 0
14. Vehicle red clearance time, if not included on line 12 (seconds) 14. 0
15. Worst-case conflicting pedestrian time (seconds): add lines 11 through 14 15. 0.0

Worst-case conflicting vehicle or pedestrian time
16. Worst-case conflicting vehicle or pedestrian time (seconds): maximum of lines 9 and 15 16. 1.0.0

17. Right-of-way transfer time (seconds): add lines 3 and 16 ........................................ 3. 0
SECTION 2: QUEUE CLEARANCE TIME CALCULATION

1. Clear storage distance (CSD, feet) ............................................. 18. 7'
2. Minimum track clearance distance (MTCD, feet) .......................... 19. 33'
3. Design vehicle length (DVL, feet) ............................................. 20. 5'
5. Time required for design vehicle to start moving (seconds): calculate as $2 + (L + 20)$ 22.
6. Design vehicle clearance distance, DVCD (feet): add lines 19 and 20 .... 23. 98
7. Time for design vehicle to accelerate through the DVCD (seconds) .... 24. 13.5
8. Queue clearance time (seconds): add lines 22 and 24 ............... 25. 15 5/8-0

SECTION 3: MAXIMUM PREEMPTION TIME CALCULATION

9. Right-of-way transfer time (seconds): line 17 ............................. 26. 5.0 0-0
10. Queue clearance time (seconds): line 25 .................................. 27. 15.5 2-0
11. Desired minimum separation time (seconds) ............................ 28. 4.0
12. Maximum preemption time (seconds): add lines 26 through 28 ...... 29. 24.5 4-0

SECTION 4: SUFFICIENT WARNING TIME CHECK

13. Required minimum time, MT (seconds): per regulations .......... 30. 20.0
14. Clearance time, CT (seconds): get from railroad .................... 31. 0
15. Minimum warning time, MWT (seconds): add lines 30 and 31 ...... 32. 20.0
16. Advance preemption time, APT, if provided (seconds): get from railroad ... 33. 11.0
17. Total time needed from APT: add lines 31 and 32 .............. 34. 8 20-0
18. Additional warning time required from railroad (seconds): subtract line 34 from line 29, round up to nearest full second, enter 0 if less than 0 .......................... 35.

If the additional warning time required (line 35) is greater than zero, additional warning time has to be requested from the railroad. Alternatively, the maximum preemption time (line 29) may be decreased after performing an engineering study to investigate the possibility of reducing the values on lines 1, 5, 6, 7, 8, 11, 12, 13 and 14.

Remarks:

SECTION 6: TRACK CLEARANCE GREEN TIME CALCULATION (OPTIONAL)

Preempt Trap Check
36. Advance preemption time (APT) provided (seconds): .................. 38. [10] 1.25 (7.5) Remarks
37. Multiplier for maximum APT due to train handling .................. 37. 125
38. Maximum APT (seconds): multiply line 36 and 37 ...................... 38. [12.5] 0.75
39. Minimum duration for the track clearance green interval (seconds) .... 39. [15.0] For zero advance preemption time

41. Preempt verification and response time (seconds): line 3 .................. 41. [1.0] 0.0 Remarks
42. Best-case conflicting vehicle or pedestrian time (seconds): usually 0 ........ 42. 0

43. Minimum right-of-way transfer time (seconds): add lines 41 and 42 ........ 43. [1.0] 2.0

44. Minimum track clearance green time (seconds): subtract line 43 from line 40 .................................. 44. [15.0] 27.75

Clearing of Clear Storage Distance
45. Time required for design vehicle to start moving (seconds), line 22 .......... 45. [2.0] 2.0

46. Design vehicle clearance distance (DVCD, feet), line 23 .......... 46. [90] 9.0 Remarks
47. Portion of CSD to clear during track clearance phase (feet) ...... 47. [7] 7 CSD* in Figure 3 in Instructions.

49. Time required for design vehicle to accelerate through DVRD (seconds) .......... 49. [13.7] Read from Figure 2 in Instructions.

50. Time to clear portion of clear storage distance (seconds): add lines 45 and 49 .......... 50. [15.7] 2.0

51. Track clearance green interval (seconds): maximum of lines 44 and 50, round up to nearest full second ..... 51. [26] 26

SECTION 6: VEHICLE-GATE INTERACTION CHECK (OPTIONAL)

52. Right-of-way transfer time (seconds): line 17 .................................. 52. [50] 5.0
53. Time required for design vehicle to start moving (seconds), line 22 .......... 53. [20] 2.0
54. Time required for design vehicle to accelerate through DVL (on line 20, seconds) ........ 54. [10] 1.0

55. Time required for design vehicle to clear descending gate (seconds): add lines 52 through 54 ........ 55. [8] 8

56. Duration of flashing lights before gate descent start (seconds): get from railroad ........ 56. [3] 3 CA TCD 07.04 Remarks

57. Full gate descent time (seconds): get from railroad .................. 57. [10] ASSUMED
58. Proportion of non-interaction gate descent time .................. 58. 0.3 429

59. Non-Interaction gate descent time (seconds): multiply lines 57 and 58 ........ 59. [4.1]

60. Time available for design vehicle to clear descending gate (seconds): add lines 56 and 59 .......... 60. [71] 7.1

61. Advance preemption time (APT) required to avoid design vehicle-gate interaction (seconds):
subtract line 60 from line 55, round up to nearest full second, enter 0 if less than 0 .......................... 61. [11] 11

RE: FREE STANDING REALTOR SIGNS

Dear Realtors and Brokers –

The Pedestrian Safety Work Group is a sub-committee of the Santa Cruz County Regional Transportation Commission’s (RTC) Elderly & Disabled Transportation Advisory Committee. The mission of the work group is to ensure safe and accessible pedestrian travel throughout the county for the benefit of all residents.

To maintain safe access for all pedestrians, the Work Group respectfully requests that realtor signs be placed in locations that do not create barriers on the sidewalk or on curb ramps. Signs should also not interfere with the ability of disabled pedestrians to reach or safely locate walk light buttons. Please find ways to place real estate signs out of the public right of way and be considerate of the rights for all in our community to safely use sidewalks.

Please let us know if you would like someone from our group to address real estate agents, brokers or administrators. Karena Pushnik, RTC staff, will follow up with Andrea Harbert or she can be reached at 831.460.3210.

Thank you.

Veronica Elsea, Chair
Pedestrian Safety Work Group
