I support the TRIP because...

We need to self-help to leverage state and local grants, and there is over 50% of the funding going to bike and ped projects, as well as funding to explore the potential for future rail service. All these are investments in a cleaner, better moving future.

Other

If you selected "Other" in the previous question, please provide your location in the county

SCCCC has board members who live throughout Santa Cruz County

I support the TRIP because...

It allows for equity by facilitating an easier commute from South County to Santa Cruz, so people have easier access to better paying jobs; it allows for offroad bicycle and pedestrian travel; it addresses local street repair issues and it allows the disabled better bus transportation; finally, adding auxiliary lanes on highway I will help deter motorists from speeding through neighborhoods.

Outreach materials

- Yes, my comments can be used in outreach materials.

Eric Horton
Area of the County
Aptos
I support the TRIP because...
It is a comprehensive plan that benefits the entire community. I want to live in a self help county where we decide the type of infrastructure projects that we want to fund rather than waiting for government grants that may or may not come and which are so full of restrictions that having a cohesive project becomes nearly impossible. I want my children to have safe and fun recreation and transportation options while they are still children! I want to keep important infrastructure intact and keep all types of transportation options open for the future! I want to be part of a community effort which makes Santa Cruz County a better place to live, work and recreate! Let's get everyone moving!

Patricia Varela
Area of the County
Soquel
I support the TRIP because...
It is impossible for Santa Cruz to thrive without a public transportation system that allows its residents and visitors to travel in an efficient manner. Highway widening only adds to the congestion; it is a band aid solution.

Scotts Valley

I support the TRIP because...

We believe that the TRIP Plan brings a long-overdue, balanced approach to transit for our local communities, and will help to "Get Everybody Moving" more safely and efficiently. We also like the opportunity to bring more local control to transit funding through a sales tax that creates revenue from all users - local and visitors alike - rather than relying on state or federal funding cycles that are subject to politics outside of our local communities.

Outreach materials

- Yes, my comments can be used in outreach materials.

I support the TRIP because...
<p>WIDEN HWY 1. I know that the bicycle group is over-represented on this matter, but, please widen the Highway! The number of people driving cars exceeds bicyclist by orders of magnitude. Spending Millions to put a bridge over Hwy 1 does not make sense for the few bicyclists that can go over the freeway at Soquel or 41st.</p> <p>I am a cyclist myself...I have put over 30K miles on my bicycle in the Santa Cruz area, and it is possible to get wherever you want to go without additional improvements. I also drive a car, so I am one of the few with the perspective of both.</p> <p>People telling us that it is better to have cars sitting idling in traffic is better for the environment</p>

than going at optimum speeds are just plain wrong.

Our area's transportation system thoroughfares have evolved with the car as the main source of transportation, so Widen HWY 1!

In driving to LA the other day, the only traffic jam I ran into was in Santa Cruz!

Name

Patrick Hamb

Area of the County

Downtown Santa Cruz

I support the TRIP because...

I am a fifty year resident of the County and have been commuting for my entire professional career. Traffic has been unbearable for some time and the time I waste in traffic has been a quality of life issue for me for some time. There is no viable option to not drive for me. I do not believe the local advocates who claim that highway widening will not positively impact the current information. None of them are engineering professionals and this is an obvious staged campaign. My Mom is in assisted living at Dominican Oaks and that is only one exit up from where I get on highway one at Morrissey Blvd, this can take thirty minutes. Please hold your resolve on making the needed improvements. Listen to real people not zealots with a single minded objective. Thank you.
