

# LEARN MORE

**DRAFT MASTER PLAN**  
PUBLIC WORKSHOPS | 6:00 - 8:00PM

The Monterey Bay Sanctuary Scenic Trail (MBSST) Network will be a braided system of bicycle and pedestrian trails that will provide non-motorized travel options and access to desirable destinations. The “rail trail” will serve as the spine of a network that will also see spur trails connecting to the coast, neighborhoods, activity centers and schools. The Draft Master Plan will provide segment by segment descriptions and discuss implementation, cost, design, construction prioritization and ongoing maintenance.

## YOUR OPINION MATTERS

Come hear a presentation on the Draft Master Plan for the MBSST Network and provide feedback on project details.
