

Coastal Rail Trail

Monterey Bay Sanctuary Scenic Trail Network

Project Description

The Monterey Bay Sanctuary Scenic Trail Network (MBSST) is a Regional Transportation Commission (RTC) proposed 50-mile bicycle and pedestrian trail project. The spine of the trail network will be the 32-mile Coastal Rail Trail from Davenport to Watsonville, to be built within or adjacent to the RTC-owned rail right-of-way. The remaining miles will be connecting paths, sidewalks, bike lanes, other roadway improvements or unpaved coastal spur trails.

The Coastal Rail Trail promises to be a highly valuable asset to the Santa Cruz County community for transportation, recreation, education, health, eco-tourism, coastal access, economic vitality, and other visitor-serving purposes. It will connect to neighborhoods, schools, parks, transit hubs, commercial and other activity centers. Approximately 18 miles of projects are currently under development or constructed, and 16.5 miles are fully funded. Project delivery includes completing design, engineering and environmental permitting, as well as receiving public input.

Approximately \$135M to date has been secured from state/federal grants and private donations. Additionally, Measure D, the voter-approved transportation sales tax, will allocate approximately \$175M for the trail over 30 years.

Following extensive public outreach, the RTC prepared and adopted an award-winning Master Plan. All local jurisdictions through which the trail will traverse have also adopted the Master Plan as a guide for implementation. The RTC and its partner agencies continue to develop and construct the Coastal Rail Trail.
