

*2023 Santa Cruz County  
Regional Transportation Grants Program*

**PROJECT APPLICATION PACKAGE FOR**

**RIO DEL MAR  
RESURFACING PROJECT**

**RIO DEL MAR BLVD**

**APPLICATION CONTENTS**

- A. Project Information
- B. Project Benefits/ Evaluation Criteria
- C. Schedule, Cost, Funding, & Estimate
- D. Project Vicinity Map/ Site Photos
- E. Certification and Assurances
- F. Roadway Preservation Documentation

## APPLICATION/PROJECT PROGRAMMING REQUEST

A. PROJECT INFORMATION					
<b>Applicant/Implementing Agency</b>			<b>Public Agency Sponsor (if different)</b>		
County of Santa Cruz			N/A		
<b>Project Title</b>					
Rio Del Mar Resurfacing Project					
<b>Brief Description/Scope of Work (attach extra pages to fully describe scope)</b>					
This project involves pavement maintenance of approximately 1.08 miles of roadway including nearly all of Rio Del Mar Blvd. The construction method used shall be isolated sections of digout and asphalt replacement where rutting has occurred as well as isolated asphalt leveling courses, followed by resurfacing of the entire roadway surface, then restriping of the work area. Work shall extend from existing roadway edge to existing roadway edge.					
<b>Location, Limits, Length (attach map(s)/photos on separate tab)</b>					
Location/Limits: Rio Del Mar Blvd (Soquel Dr to 100' N/O Cliff Dr) - 1.08 Miles					
<b>Roadway Functional Classification:</b>		4-Minor Arterial			
<b>Summary of Project Benefits, Purpose and Need</b>					
(See Response in Section B)					
<b>Funds requested</b>	\$885,000	<b>Total Project Cost</b>	\$999,661	<b>Estimated # of Daily Users</b>	17,900
<b>Are you able/willing to receive federal funds?</b>		Yes			
<b>Was project previously programmed for funds by RTC?</b>			No		<b>RTIP ID</b>
					N/A
<b>Project Cost by Mode (list approximate percentage of total project costs)</b>					
<b>Mode</b>			<b>% of Total Cost</b>		
Pavement Preservation (rehab, overlay, etc.)			98%		
Road-Auto serving (not rehab)					
Bicycle					
Pedestrian					
Transit			2%		
Transportation System Management (TSM)					
Transportation Demand Management (TDM)					
Other:					
<b>Total</b>			<b>100%</b>		
<b>Priority</b>	Project is priority #		1	of	8
applications submitted					
<b>Contact Name</b>		<b>Phone</b>		<b>E-mail Address</b>

## B. PROJECT BENEFITS/ EVALUATION CRITERIA

Information in this section will be used to evaluate projects. The RTC is required to consider how well projects advance regional, state and federal goals, policies, performance metrics and targets, including how projects will contribute towards implementation of the long-range transportation plan (Regional Transportation Plan) and other state and federal regulations including the California Complete Streets Act of 2008, SB375, the Federal FAST Act.

See [Attachment 2](#) of the call for projects for examples of type of information to demonstrate benefits.

<b>Project Title:</b>		Rio Del Mar Resurfacing Project
<b>Generally, what are the benefits of this project?</b>		
Rio Del Mar Rd is an arterial route conveying traffic from State Highway 1 and Soquel Drive into the community of Rio Del Mar and receives a large amount of traffic on a daily basis. This route is the primary access route into this area serving residents and a large volume of tourist traffic accessing public beaches and parks, it directly provides access to the community of Rio Del Mar, and connects to other routes providing access to neighboring communities including Seacliff, Seascape, and La Selva. While road width is too narrow to accommodate bike lanes, it is used by cyclists connecting to other routes. In addition to vehicle traffic and cyclists, it also serves a transit route (Metro Route 55). This project will restore the health of this roadway so that it may continue to provide access to the community.		
<b>Benefit Category</b> (See Attachment 2 of Call for Projects for additional information and sample supporting data)		<b>How does this project address any of the following?</b> Projects are not expected to address all of these; if not applicable or not a primary purpose, write "N/A".
1	Safety and Collisions (reduce fatal or injury collisions)	Project will improve road surface which will benefit all vehicles including cyclists and emergency services and install new striping which will improve visibility.
2	System Preservation / Infrastructure Condition (maintain existing transportation infrastructure, service, or program)	Will improve pavement condition of existing roadway to extend the useful life of this facility.
3	System Performance	Improvements to the pavement surface will enhance ride quality for all users and reduce vehicle wear.
3a	Reduce Emissions and/or Vehicle Miles Traveled	N/A
3b	Improve travel times, travel time reliability; reduce delay	N/A
3d	Improve freight or goods movement efficiency	Improved ride quality & striping visibility.
4	Increase Access for All (Expand multi-modal travel options/choices, especially to and within key destinations for all users)	N/A
5	Public Health and Equity - Enhance health, safe access to key destination for transportation-disadvantaged populations	N/A
5a	Improve public health or promote healthy communities, provide outreach to targeted users/health issues	N/A
5b	Serve people who are transportation disadvantaged due to age, income, ability or language or other challenges	N/A
5c	What percent of the population in the project area is minority or low-income?	Rio Del Mar Blvd: EPA "Low Income" - 11%, EPA "People of Color" - 25%
5d	Will the proposed project increase traffic in low-income and minority neighborhoods?	No
6	Climate Change and Resiliency (reduces greenhouse gas (GHG) emissions or vehicle miles traveled (VMT) per capita)	N/A

<b>Additional Considerations in Project Evaluation:</b>		
A.	<b>RTP Consistency:</b> If project is included in the 2045 Regional Transportation Plan (RTP) Project List, list RTP Project Number	Rio Del Mar Blvd is included in the 2045 RTP (CO-P30N), however the RTIP listed projects included various multimodal improvements while this project will focus primarily on pavement preservation.
B.	<b>Consistency with Complete Streets</b> guidelines and policies: Describe how is project consistent with guidelines, integrates complete streets elements	The goal of the complete streets guidebook is to plan transportation projects such that the maximum number of people in the community are benefited by transportation funding. This project is designed to provide longevity to critical roadway infrastructure that serves a great number of people in the community both in terms of travel to destination and in access to emergency services.
C.	<b>Consistency with other plans.</b> What other plans is this project listed in, if any?	N/A
D.	<b>Public engagement:</b> How was this project determined to be a priority? What outreach will occur during implementation?	This project has been reviewed and approved by the County of Santa Cruz Board of Supervisors. Pavement maintenance projects are typically not subject to a public review process, in our experience the public is generally very receptive to pavement maintenance projects, we work with each district supervisor to determine top priorities for their district.
E.	<b>Scale of Benefits</b> - How many users are expected to use the facility, service or program? What is the source of this estimate?	Estimated Number of Daily Users is shown in Part A - Project Information. This data was obtained from SCCRTC Traffic Count Data, or more recent Traffic Count Data if available.
<b>F. Potential Risks (and plans to mitigate them)</b>		
F1	<b>Funding</b> - Is this project fully funded? What other funding has been secured for the project?	Yes, local match is available to cover full grant request. Requested grant funding and required local match are the only sources identified for this project, there are no other funding sources to report.
	How will potential cost increases be funded?	Cost increases will be dealt with either by truncating project scope or limits, or by increasing use of local funds (if available).
	Will funds programmed by RTC be used to leverage other grants? If funds are not approved by the RTC during this competitive grant cycle, will other funding be at risk of being lost?	No, no other grant funds are associated with this project
	Is this project eligible for any other competitive grants?	No
F2	<b>Schedule:</b> Describe any potential delays to schedule	None.
F3	<b>Deliverability:</b> Describe why your agency is capable of delivering this project. (sufficient staff, project management, performance in past)	Since the project involves pavement maintenance of an existing facility within existing County right of way, the project will require no right of way acquisition, and only a CEQA categorical exemption in terms of environmental permitting. The County is eager to perform this work and can schedule the work for summer as soon as grant funds are available.
F4	<b>Environmental:</b> Describe any potential environmental issues, mitigations, risks associated with current and future	None.
F5	<b>Other:</b> Describe any other potential risks and plans to mitigate risks	N/A

**C1. CAPITAL PROJECTS - SCHEDULE, COST AND FUNDING SUMMARY**

(No Non-Infrastructure Components are included in this project)

<b>Project Title:</b>	Rio Del Mar Resurfacing Project		
<b>Project Schedule/Milestone</b> <i>(For TRANSIT vehicles- modify milestones accordingly or use Uniform Transit Application)</i>	<b>Anticipated Date</b>	<b>Notes on schedule (flexibility, worst-case schedule)</b>

**E. CERTIFICATION AND ASSURANCES**

As authorized representative for my agency, I hereby certify that the information contained in this application, including required attachments, is accurate and hereby certify the following:

Project:	Rio Del Mar Resurfacing Project	INITIALS
1	The project implementing agency possesses legal authority to nominate projects and to finance, acquire, construct, and/or implement the proposed project;	DS MM
2	This project is among the highest priorities for this agency;	DS MM
3	The proposed transportation investments have received the full review and vetting required by law;	DS MM
4	Such investments are an appropriate use of taxpayer dollars. The agency shall adhere to principles and policies that ensure government oversight and management of the contracting process to ensure taxpayer funds are spent wisely; contracts are not wasteful, inefficient, or subject to misuse; unnecessary no-bid and cost-plus contracts are avoided; and contracts are awarded according to the best interests of California taxpayers;	DS MM
5	The agency will maintain and operate the property acquired, developed, rehabilitated, or restored for the life of the resultant facility(ies) or activity. I understand that with the approval of the California Department of Transportation, the Administering Agency or its successors in interest in the property may transfer the responsibility to maintain and operate the property;	DS MM
6	If these new funds are used to replace funds previously committed to this project, the agency will maintain its effort with regard to redirecting those funds to similar transportation projects;	DS MM
7	The agency will give RTC and California Department of Transportation's representative access to and the right to examine all records, books, papers, or documents related to the project;	DS MM
8	Work on the project shall commence within a reasonable time after receipt of notification that funds have been approved, allocated or obligated, as applicable, and that the project will be carried to completion with reasonable diligence;	DS MM
9	The agency will comply where applicable with provisions of the California Environmental Quality Act, the National Environmental Policy Act, the Americans with Disabilities Act, the Secretary of the Interior's Standards and Guidelines for Archaeology and Historic Preservation, and any other federal, state, and/or local laws, rules and/or regulations;	DS MM
10	The agency shall comply with all reporting requirements outlined by FHWA, FTA, RTC, Caltrans, the California Transportation Commission (CTC) or state statute, as applicable;	DS MM DS MM
11	The agency will commit the funds necessary to ensure this project is fully funded.	MM

### Exhibit 25-K: Local Road Rehabilitation Project Certification

**To:** Santa Cruz County Regional Transportation Commission  
 1101 Pacific Ave #250  
 Santa Cruz, CA 95060

**Date:** 10/24/23

The County of Santa Cruz submits the following local road rehabilitation project for certification that the project is in compliance with California Transportation Commission guidelines.

**Project Description:** **Rio Del Mar Resurfacing Project**

Project will consist of Asphalt Digouts, multiple resurface techniques including Rubberized Cape Seals & Asphalt Overlays, and restriping of project roadways on the following road segments:

- Rio Del Mar Blvd (Soquel Dr to 100' N/O Cliff Dr)

Street/Road (Noted Above)	From (Noted Above) To (Noted Above)	Local Road Facility	PPNO	Rehabilitation Strategy	Service Life (Years)
		Pavement Preservation	TBD	Rubberized Cape Seals & Asphalt Overlays	10

**The project listed above meets the following standards:**

- The type of work is eligible for local road rehabilitation, and excludes routine maintenance work, as described in Section II-D-9: "Eligibility of Rehabilitation Projects" of the Procedures for Administering Local Agency Grant Projects in the State Transportation Improvement Program.
- For pavement rehabilitation, the estimated number of years the work will extend the service life of the facility is documented in a PSR or equivalent signed by a registered civil engineer.
- Pavement rehabilitation strategies with less than 10 year service life have been determined by a Pavement Management System (PMS) to be cost-effective and have a service life of 5 years or more. (Attach PMS certification if appropriate).
- The work does not degrade any existing safety or geometric aspect of the facility.

County Signature:  Title: Senior Civil Engineer Date: 10/24/23

**Regional Transportation Planning Agency/County Transportation Commission Certification**

The Santa Cruz County Regional Transportation Commission (SCRTC) certifies the projects listed above meet California Transportation Commission guidelines.

### Exhibit 25-L: Pavement Management System (PMS) Certification State Transportation Improvement Projects

**To:** Santa Cruz County Regional Transportation Commission  
1101 Pacific Ave #250  
Santa Cruz, CA 95060

**Date:** 10/24/23  
**PPNO:** TBD

**Project Description:** Rio Del Mar Resurfacing Project

Project will consist of Asphalt Digouts, multiple resurface techniques including Rubberized Cape Seals & Asphalt Overlays, and restriping of project roadways on the following road segments:

- Rio Del Mar Blvd (Soquel Dr to 100' N/O Cliff Dr)

The County of Santa Cruz certifies that it has a Pavement Management System (PMS) and the project meets the criteria described in this chapter. A system must be in place to meet standards for pavement rehabilitation projects programmed in the STIP.

The system was developed by StreetSaver, MTC and contains, at a minimum, the following elements:

- Inventory of all existing pavements under the County's jurisdiction.  
Centerline miles: 586  
Total lane miles (or equivalent units): 1189  
The last update of the inventory was completed: May 2018
- Sections of pavement needing rehabilitation  
Total lane miles (or equivalent units): 925
- Estimated cost to rehabilitate deficient sections: \$490,000,000
- Procedure to identify rehabilitation strategies that are cost effective:  
The County uses the StreetSaver pavement management system to catalog County maintained road sections and maintain pavement condition assessments of those sections using the Pavement Condition Index (PCI) ranking system. This program has a built in decision tree which specifies appropriate and cost effective resurfacing treatments for different PCI ranges. Based on the current PCI of the road section in question, the program can identify appropriate resurfacing techniques for that section.

You may direct any questions regarding the County's Pavement Management System to:  
Casey Carlson, Senior Civil Engineer at: (831) 454-3102
