

## Santa Cruz County Regional Transportation Commission 2024 FEDERAL Legislative Program

---

- **Priority Projects:** Seek and preserve funding for priority transportation projects and programs in Santa Cruz County, including:
  - Projects on Highway 1
  - Santa Cruz Branch Rail Line preservation
  - Transit operations and capital projects
  - Bicycle and pedestrian facilities, including the Monterey Bay Sanctuary Scenic Trail Network (MBSST/Rail Trail)
  - Local street and roadway preservation and storm damage repairs
  - 511 Traveler Information
  - Coastal resiliency and climate adaptation projects, including Scotts Creek Bridge replacement and other north coast creeks and the rail corridor
  - Highway 9/SLV Corridor Complete Streets
- **Pedestrian & Bicyclist Safety**
  - Support incentives and regulations to reverse trend of **heavier and taller motor vehicles**, which can cause more severe injuries and deaths to pedestrians and bicyclists as well as environmental impacts; and support adding pedestrian detection systems in new vehicles.
- **Transportation Act Implementation**
  - Support the implementation of the Infrastructure Investment and Jobs Act (IIJA) in a manner that maximizes funding for the implementation of priority projects in Santa Cruz County, including formula and discretionary funding and policies.
- **Transportation Funding**
  - **Raise New Revenues & Grow Existing Programs:** Support raising and indexing federal gas taxes and developing new funding mechanisms to ensure the financial integrity and solvency of the Highway Trust Fund (HTF) and Mass Transportation Account. Increase federal transportation investment in all modes to bring transportation infrastructure up to a good state of repair and meet growing transportation needs in Santa Cruz County.
  - **Increase funding:** Support legislative actions that increase funding for priority projects in Santa Cruz County, including:
    - **Active Transportation:** Bicycle and pedestrian safety and mobility projects, such as the Transportation Alternatives Program (TAP).
    - **Transit:** Small Transit Intensive Cities Program (STIC), funding for the acquisition of transit capital (Bus and Bus Facilities, and Low and No Emissions Bus Programs), Capital Investment Grants, Americans with Disabilities Act (ADA) implementation, state of good repair, and other transit programs. Support tax credits for the purchase of electric buses.
    - **Local Roads and Highways:** Support robust funding for core programs such as the Surface Transportation Block Grant Program (STBG), Highway Safety Improvement Program (HSIP), and bridge programs needed for local entities to address the backlog of bridge and roadway projects.
    - **Self-Help Counties:** Support programs that reward areas that have approved self-help revenue measures like Measure D and the METRO dedicated sales taxes.
    - **Planning:** Federal planning funds to address increased planning, performance measures, monitoring, and model requirements.

- **Transit Oriented Development (TOD):** Grants or pilot programs for comprehensive planning and infill development to connect housing, jobs, and mixed-use development with transportation options.
- **Support COVID Relief and Economic Recovery:** Support federal funding to support economic recovery, local and state responses to the public health crisis, and backfill any transportation revenue losses due to COVID-19.
- **Climate and social spending bills:** If a funding package advances through the legislative process, support the inclusion of funding for sustainable transportation and system preservation projects in Santa Cruz County and addresses principles for the reauthorization of the transportation act. Any infrastructure package should ensure projects in Santa Cruz County are not disadvantaged in accessing those funds. The initiative should also include a significant investment of **new** federal funds for transportation, stabilize the Highway Trust Fund, and not be offset by reductions to other federal programs serving Santa Cruz County residents.
- **Air Quality, Greenhouse Gas Emissions, and Climate Resiliency:** Strengthen federal partnerships to improve air quality, reduce greenhouse gas (GHG) emissions, and make our communities and transportation networks resilient to a changing climate.
  - **Funding:** Support the development of new resources to support climate adaptation and reduce greenhouse gas emissions from transportation (similar to those included in the Senate FAST Act reauthorization bill (S. 2302)), expand eligibility for Congestion Mitigation and Air Quality (CMAQ) and other funding programs to Santa Cruz County.
  - **Electrification:** Support federal funding, tax credits, and coordination of vehicle electrification purchase (including buses), planning and infrastructure.
  - **Mitigation:** Defend against rollbacks of California’s air quality and climate change laws and regulations, such as fuel efficiency standards and cap-and-trade programs.
  - **Resiliency:** Support resiliency and climate change preparedness and efforts that could support local efforts to improve resiliency, respond to new or worsening storms, wildfires, and other environmental hazards and meet regional climate goals. Support efforts to increase planning funds that help regional governments address climate change and make regional transportation infrastructure more resilient.
  - **Disaster Recovery:** Ensure the federal government provides sufficient emergency relief appropriations and federal agency resources to support rebuilding and recovery efforts for wildfire, storm, and other natural disasters. Support legislative efforts to extend the timeframe for road projects qualifying for federal disaster reimbursement to move to the construction phase from two years to six years.
- **Federal Authorization Implementation:** Support legislation and administrative strategies to implement federal transportation authorization bills in a way that ensures the best possible outcome for transportation projects in Santa Cruz County. Ensure that the U.S. Department of Transportation (DOT) implementation of MAP-21, FAST Act, IIJA, and any new transportation act rules and regulations do not negatively impact local projects and programs.
  - **Discretionary Grants:** Advocate for discretionary transportation grant awards for priority transportation projects in Santa Cruz County, including the Better Utilizing Investments to Leverage Development (BUILD, formerly TIGER) and Capital Investment Grant program.
  - **Innovative Financing:** Ensure proposals for public-private partnerships and innovative financing are favorable for project implementation in Santa Cruz County. Support and expand the Transportation Infrastructure Finance and Innovation Act (TIFIA) program and make the

Railroad Rehabilitation and Improvement Financing (RRIF) program more accessible to smaller public agencies.

- **Department of Transportation Budget and Annual Appropriations:** Ensure that Congress appropriates funding consistent with amounts authorized in federal transportation authorizations (e.g. IIJA), even if Continuing Resolutions (CR) are needed to keep transportation programs running each fiscal year.
  - **Oppose rescissions or arbitrary cuts** that could reduce funding for transportation projects in Santa Cruz County.
  - **Support transparent congressionally-directed spending** (earmarks) to allow for Congressional support of priority projects in Santa Cruz County
  - **Oppose unfunded mandates** and support legislation that provides funding for past mandates.
  - **Performance Measures:** Support the development of performance measures that are consistent with RTC-approved goals, policies, and targets and which recognize data limitations of many regions. Support open collaboration, data sharing, and funding to successfully implement state and federal performance-based planning and management requirements.
- **Protect and Expand Transportation Fringe Benefits:** Reinstate the commuter benefits, which were eliminated under the 2017 tax reform bill. In addition, advocate for expanding pre-tax transportation fringe benefit eligibility to include shared mobility options, such as bike-share and shared ride carpool services.
  - **Shared Mobility:** Advocate for federal legislative and regulatory updates that support shared mobility options such as bike-share, shared rides, carpooling, and shared scooters. Support expanding pre-tax transportation fringe benefit eligibility to include shared mobility options. This change would support the now-permanent Bay Area Commuter Benefits program by expanding federal tax incentives to utilize alternatives to single occupancy travel to commute to work.
  - **Autonomous Vehicles:** Oppose federal efforts to preempt local authority to regulate the use of autonomous vehicles in their communities.
  - **Streamline Project Delivery:** Support regulations to streamline and integrate federal project delivery requirements for project planning, development, review, permitting, and environmental processes to reduce project costs and delays.
